

# Basic Detail Report

---

The instrument by which a cricket produces its music. The odd curved lines, or grooves, seen in the cricket's wing, produces the familiar chirping sound of the cricket when the two wings are rubbed together, in the same manner as does the bow of a fiddle

**Date**

1930s

**Primary Maker**

Lynwood M. Chace

**Medium**

gelatin silver print

**Description**

Klinsky Press Agency Collection

**Dimensions**

Overall: 18 x 22.5 cm (7 1/16 x 8 7/8 in.)
